LITTLE LEARNERS LOVE LITERACY PROGRAM

Learn and Leap is an Education Centre which is authorized to use the *Little Learners Love Literacy*® program for its *School Ready Program*.

The *Little Learners Love Literacy*® program is designed for children 3 to 6 years and teaches children the skills needed to be successful in reading, writing and spelling:

- phonemic awareness
(ability to hear, identify and manipulate the sounds in a spoken word)
- the alphabetic principle (the connection between sounds and letters)
- segmenting and blending words, fine motor skills required for handwriting, spelling and reading

The weekly, one hour sessions also prepare your child for school and the classroom setting with social skills and classroom routines a big part of the learning. The program covers Stages 1, 2 and 3 of *Little Learners Love Literacy* over the year and is perfectly suited to 3 to 4-year old children. Children aged 3 years of age have successfully completed this program and then gone on to do the *School Ready Program* at 4 years of age.

Delivery of the program is fun and creative, using craft, music/singing and games to engage children in their learning. The sessions are run in small groups by a qualified and highly experienced Literacy Coach.

SCHOOL READY PROGRAM

Learn and Leap's 'School Ready Program' prepares 4-year old preschool children for their first year of school. The program helps to develop social skills and routines, as Kindergarten does, but also teaches very specific phonological awareness skills which are the basis for the successful development of reading and spelling. It is an extension of the skills developed in the *Little Learners Love Literacy*® classes.

The *School Ready Program* is ideal for students who have already undertaken the *Little Learners Love Literacy*® Program as a 3-year old, or for 4-year old students who already have a solid understanding of letter/sound relationships.

The *School Ready Program* is delivered using hands-on activities and experienced-based learning methods. It is multisensory in approach and uses evidence-based programs such as "*Nessy*" and "*A Sound Way*" to extend the student's skills and knowledge.

The sessions are run in small groups by a qualified and highly experienced Literacy Coach. They are held for 1 hour per week in line with the school terms.

NUTTY FOR NUMBERS

While literacy is vital for students, so is numeracy! In all our programs, students are active participants in their learning. Activities require them to demonstrate their understanding of the concept and hence achievement of the learning outcome. Our *'Nutty for Numbers'* classes are no different.

'Nutty for Numbers' is suitable for 3 to 4-year old preschool students. It teaches the concepts needed for the successful development of math skills at school. Many people believe that there is no need to teach literacy and numeracy prior to the school setting. At *Learn and Leap*, we don't agree. Our past students have excelled at school because of the 'head start' they had by participating in our programs.

As the Early Years Learning Framework (EYLF) strongly tells us, the foundations of literacy and numeracy are laid well before formal schooling starts: Positive attitudes and competencies in literacy and numeracy are essential for children's successful learning. The foundations for these competencies are built in early childhood (DEEWR, 2009, p. 38).

While play-based, incidental learning is important, so too is direct and explicit teaching of literacy and numeracy concepts. Many concepts are complex and we can't risk that they are not understood before your child goes to school. The concepts we teach are:

1. Numbers to 20 – counting
2. Numerals to 20 – count and match
3. Quantity – same, more or less, many, few
4. Attributes & Measurement – big and small, long and short, longer and shorter, tall and short, taller and shorter, tallest and shortest
5. Attributes – shape and colour
6. Classifying by type, taste, texture
7. Patterns
8. Number – more than, less than
9. Number – making sets to 10
10. Number – adding and subtracting sets
11. Counting – adding 1 more, 2 more
12. Attributes & Measurement – full and empty, heavy and light, heavier and lighter
13. Position – in front of, behind, beside, under, over
14. Money
15. Time – Days of the week, the clock

PAYMENT OF FEES & ACKNOWLEDGEMENT OF PROGRAM

I _____ (parent or guardian) acknowledge the fees outlined above. I also understand that a place will be held for my child in the selected program(s). Payment of fees is essential. A discount can only be offered for upfront payment of fees if fees are paid prior to the commencement of each term. If other arrangements for payment of fees is required, other than upfront or weekly, please feel free to talk to Kerrie Bradburn regarding this. There are no refunds for missed sessions but we are happy to work with the parent and child to assist in catch-up activities.

It is desirable that children participate in the whole program for several reasons:

- To give the child continuity in their learning;
- To give the child the best opportunity to be “school ready” in literacy/numeracy and in social terms;
- To provide the child with the basis needed life-long learning and opportunity;

PAYMENT METHOD

I elect to pay for the program(s) in the following manner:

Group Sessions

Weekly (group) \$35 per session Payable on the day in cash

By Term (group) \$30 per session Upfront payment as per terms below
